

It can be hard to keep track of all the information from your appointments with healthcare professionals. This diary may help you keep key information in one place.

You may also wish to keep track of your child's progress and abilities between appointments, which may help when reporting back to healthcare providers.

You can print the pages in this diary multiple times to ensure you have enough, or you could create your own diary.

Please note that the information in this resource is not intended to be a substitute for advice from a healthcare professional. Furthermore, the information is not exhaustive, so there may be additional information that you will want to record before, during, and after appointments. If you are in doubt you should contact a healthcare professional for advice.

Tests and assessments

You can record the tests your child has had here:

What is the test for?	When is the test?	Where should I go for the test?	When will the results be available?	What might the results tell us?
